FOLKS ARE TERRIFIED

Fearful Energy of Mt. Pelee Has Thoroughly Scared Inhabitants.

SCIENTISTS SEEK A SOLUTION

The Second Eruption Said to Be More Violent and Destructive Than the One Which Destroyed St. Pierre.

Fort de France, Island of Martinique, May 23.—Mont Pelee seems to be resting after its last fearful manifestation of energy. Streams of frightened refugees have been pouring into Fort de France from all the surrounding country.

These people are not destitute, but they are terrified. They want only one thing, and that is to be taken far away from this island with which they will destroy by fire before it sinks under the sea.

The consuls here and the officers of the war vessels in the harbor are waylaid by persons crazed with fear and begging to be carried away. The weather is now calm and beautiful, but the mountain is veiled in volcanic clouds which often assume a very threatening aspect, and occasional rumblings are heard. Some heavy and very welcome rain has fallen.

The United States steamer Dixie, Captain Perry, from New York, arrived after a quick and safe passage. Her passengers include many world famous scientists. Professor Robert T. Hill, government geologist; Professor C. E. Borchgrevink, the Antarctic explorer; Messrs. George Curtis and George Keenan and many magazine writers and correspondents are also among those who arrived on the steamer. The Dixie began landing her enormous cargo of supplies early and the storehouse on shore soon became congested and this is the greatest difficulty of the administration.

The United States steamer Potomac went to inspect St. Pierre with the commanders of the war vessels now here. With the greatest difficulty the party succeeded in making a landing. The effects of the outburst of Tuesday were tremendous. The huge basaltic tower of the cathedral was hurled flat to the earth. The bombardment of volcanic stones is not sufficient to account for all and evidences point to the passage of a furious blast of burning gas, traveling at enormous speed and with incalculable force. The deposit of boulders, ashes and angular stones is enormous. Not a human being saw what happened at St. Pierre.

This second eruption was many times more violent than that which effaced St. Pierre and swept its people from the earth on May 8. Nor has all volcanic activity ceased. Vast columns of smoke and gas still pour from the great crater and new fissures have opened on the mountain sides and are vomiting yellow whirlwinds, which rush intermittently now from one point and now from another. Boiling mud is also thrown out at times in torrents that reach the sea and produce small tidal waves. From a sombre, silent city of death and desolation St. Pierre has become a hideous amphitheater of fiery roaring destruction.

The people are convinced that God is angry with the island and means to scourge it with fire and then sink it in the ocean. Utter and unreasoning fear possess all souls. Even Fort de France is believed to be unsafe. The presence of the relief ships is helpful to the people who say: "The American flag makes safety."

The Potomac could not approach close to St. Pierre. The Dixie will sail for St. Vincent, but the other vessels will remain.

The scientists who have arrived will examine into the question of the danger of the peaks of Carbet, near Fort de France becoming active volcanoes. The outburst of Wednesday probably means a ruined island as all confidence is lost.

"We want no food, but only to leave," is the cry of rich and poor.

Preparing to Evacuate.

Paris, May 23.—The minister of the colonies, M. De Crais, has cabled to Governor L'Hourre, at Fort de France, instructing him to make all possible arrangements for the embarkation of the inhabitants of Martinique in event of the circumstances necessitating the evacuation of that island.

Copenhagen, May 23.—The Politiken is authority for the statement the United States Secretary of State Hay has proposed an extension for one year, namely until July 24, 1903, of the time allowed for the ratification of the treaty for the sale to the United States of the Danish West Indies. There is little doubt that King Christian will agree to the proposal.

FRENCH PARTY

Officially Received by the President in the White House.

Washington, May 23.—The remaining members of the notable party sent to represent the French government at the ceremony of unveiling the Rochambeau statue arrived here over the Pennsylvania railroad at 10 a. m. from Annapolis, which place they reached on the Gaulets. Only a small crowd was at the depot to greet the distinguished visitors. Beside the police escort, troops of the Second cavalry from Fort Myer was drawn up in front of the station and saluted on the appearance of the visitors. Assistant Secretary Peirce of the state department entered the first of the open carriages in waiting with the ranking members of the party and several members of the French embassy also acted as escort. All of the party, including the embassy attaches, wore the uniform of their rank.

The carriages, about a dozen in number, wheeled into Pennsylvania avenue and proceeded to the White House, where Count Rochambeau and his party, Ambassador and Mme. Cambon and others waited to greet them and where President and Mrs. Roosevelt officially received the party in the east room.

The carriages were preceded by an escort of mounted bicycle policemen and the cavalry troop. As the party neared the White House a salute was fired by a detachment of artillery in the grounds south of the White House.

PRESIDENT MITCHELL

Thinks Michigan Mine Owners Will Grant Requests of Men

Wilkesbarre, Pa., May 23.—The executive committee of the three anthracite districts of the United Mine Workers resumed their joint sessions for the purpose of considering any further business that may be presented. Neither President Mitchell nor the committeemen would say what matters would be taken up, but as the call for the proposed special national convention has not been issued, it is believed that this will be the principal thing that will engage the attention of the meeting. President Mitchell confirmed the dispatch that the Michigan bituminous district had consented to talk on the proposition of calling out the engineers, firemen and pumpmen unless they are given an 8-hour day at the present wages. He expects the mine owners to comply with the demands of the union.

The three executive committees, after being in session a few minutes, adjourned sine die. Nothing was taken up and nothing given out.

Work Was Stopped.

Tamaqua, Pa., May 23.—Led by a drummer and a bugler several hundred striking miners marched on the Smith-Meyers washery. A sentry posted in a tree fired his gun as a warning to the men at the washery that the strikers were approaching. Operations were at once discontinued. When the strikers were within 50 yards of the operations they were met by Charles Meyers, one of the operators. Mr. Meyers appealed to them not to damage any property or to injure any of the men. He said that he would pledge his word that not a pound of coal would be shipped until the strike had been settled. The marchers appointed a committee to meet the employers and the latter promised not to work until an order to do so is issued by the United Mine Workers. The marchers then returned to town.

Starting Criminal Record.

New York, May 23.—Startling statistics on criminology have been presented at the annual convention of the New York county W. C. T. U. One of the delegates read a statement to the effect that a woman of criminal tendencies, whose name was not made public for obvious reasons, died in 1827. "Her descendants have been traced," continued the speaker. "They number 800, of which 700 were criminal having been convicted at least once. Thirty-seven were murderers and were executed for their crimes. This family," the speaker continued, "has cost the nation \$3,000,000 for trials and executions."

New Match Company.

New York, May 23.—Considerable mystery surrounds the purpose of the consolidated match company, which has just been incorporated in New Jersey with a capital of \$10,000,000. The real persons behind the new company have not been announced. It was stated, however, that the company will conduct manufacturing plants at all its plants throughout the country.

Independent Operator Starts.

Hazleton, Pa., May 23.—Mathias Schwabe, a small independent operator started up his colliery at South Heberton. All of his miners are to receive the wages demanded by the Mine Workers. The output will be for home consumption exclusively. It commands \$6 a ton at the breaker.

A STRIKING CONTRAST

Made by Senator Hoar Between Policy in Cuba and in Philippines.

PRAISE AND CRITICISM BESTOWED.

The Massachusetts Statesman Pays His Respects to Funston, Intimating That Latter's Promotion Might Have Been Stopped.

Washington, May 23.—Soon after the senate convened consideration of the Philippine government was resumed, Mr. Hoar addressing the senate in opposition to the present policy of the government in the Philippines. Great interest was manifested in the utterances of Mr. Hoar both on the floor and galleries. Mr. Hoar spoke deliberately and confined himself closely to his manuscript. He spoke as follows.

Mr. Hoar maintained "that this country is not at war." "You are fighting for sovereignty," he said, "you are fighting for the principle of eternal dominion over that people and that is the only question at issue in the conflict."

"When it had been determined to resort to force in the Philippines" he said, "the government took upon itself the natural consequences of that decision. The result of the conflict of arms of such a character inevitably

SENATOR GEORGE F. HOAR

was that there would be cruelty on one side and retaliation by cruelty on the other; and the responsibility rested upon those who made the policy."

Mr. Hoar said he was to discuss and denounce what seemed to him one of the most wicked and foolish chapters in history; yet he was compelled to admit, he said that the men who were responsible for it were neither wicked, nor foolish.

Mr. Hoar maintained that his conscience would not permit him to follow these men and his conscience was the only authority he felt bound to obey in this matter. He said the share it was intended to give the Filipinos in the proposed scheme of government was an admission that many of them were fit for self government. The United States was fighting to secure a dependency not a republic; a government of our making and not a government of the Filipino's making.

Discussing the testimony taken by the Philippine committee, Mr. Hoar said it had contained some pregnant admissions. What vindicates that which has been done so far is the saving of the islands from anarchy and the material benefit conferred upon the Philippines people.

What the fathers of the republic said and our century of glorious history were appealed to in vain. Their lessons fell upon the ears of men dazzled by military glory and delirious with the lust of conquest."

Cuba and Philippines Compared.

He compared the situation in Cuba with that in the Philippines and demanded to know which was the better. Mr. Hoar recited a chapter of history of this country which he said showed that the present policy of the government was in contradiction of the Monroe doctrine as it was a contradiction of the Declaration of Independence. He said that if the present way was followed the Declaration of Independence would be repealed and nothing would be left of the Monroe doctrine except the principle of brutal selfishness.

This government had created a republic in Cuba and a despotism in the Philippines. Six hundred millions of treasure and 10,000 American lives had been sacrificed in that endeavor. In the Philippines the American flag had been made the emblem of sacrifice and the burning of homes and of the horror of the water torture. He believed that our officers in general were humane.

"But in some cases they have carried on their warfare with a mixture of American ingenuity and Castilian cruelty."

"What have your ideals cost you?" inquired Mr. Hoar. "For the Philippine islands you have had to repeal the Declaration of Independence. For Cuba you have had to reaffirm and give it new lustre. For the Philippine islands you have had to convert the Monroe doctrine into a doctrine of mere selfishness. For Cuba you have acted on it and vindicated it."

"In Cuba you have the eternal gratitude of a free people. In the Philippine islands you have the hatred and sudden submission of a subjugated people. From Cuba you have brought home nothing but glory. From the Philippines you have brought home nothing of glory."

Referring to the cruelties committed in the Philippines, Mr. Hoar said he believed the American soldiers were as brave and humane as ever lived. They have done what always would be done in like conditions. The chief guilt was upon the heads of those who created the conditions.

After reviewing briefly the capture of Aguinaldo by General Funston, the methods of whom he sharply criticized, Mr. Hoar expressed the belief that the senate did not know what it was doing when it consented to General Funston's promotion and intimated that the result might have been different if the senate had been fully cognizant of all the facts.

Adverting again to the "horrors" which have occurred in the Philippines, Mr. Hoar said: "I hope and believe they were unknown to the war department. I know they were unknown to President Roosevelt and I know they were unknown to President McKinley." He did not believe, however, that the statement that the war had been conducted with unexampled humanity on our part would be accepted by the people. He denounced the order alleged to have been given by General Smith and lay particular stress upon the horrors of the concentration camps which he likened to the dreadful scenes in Andersonville prison during the civil war.

The assembly of 1901 named a committee to do a particular thing. What you have to pass on is not whether that certain thing should be done, but whether the committee has done it to your satisfaction."

On motion of the Rev. D. J. Wylie, speeches on the report were limited to 10 minutes, except that of the committee chairman.

The Rev. Dr. J. D. Moffatt then moved the adoption of the 11 overtures to be sent to the Presbyteries.

The Rev. Dr. H. C. Minton, chairman of the revision committee, spoke for the report. He would not, he said, argue the merits of the whole report, but would speak of the especial considerations which influenced the committee. They were guided in the first place by the work of the committee of 1892. The presumption, of course, was always in favor of the explicit orders of last year's assembly. There were two elements on the committee, he explained, those who preferred to make all amendments by verbal modifications, and those who wished to make the changes by separate declaratory statements. Obviously there seemed to be some yielding and it was not all on one side. The misapprehensions as to the confession, continued Dr. Minton, "have come from two causes. First, the unguarded statements in the confession itself, and second, unwarranted inferences from the confession. In the first cases verbal changes would be the remedy. In the second declaratory statements were necessary."

Dr. Minton then took up the various points on which the committee had been asked to pass.

"Regarding the pope of Rome," he said, "the confession distinctly says the pope is the anti-Christ and the son of perdition. Now, if that were true and if we want to say it—let it stand. If not true, or if true and we do not wish to say it, take it out. I may believe that the pope is anti-Christ on general principles. I am quite willing to declare in the face of the Vatican and the whole world for that matter that the pope using the crown rights of Jesus Christ is anti-Christ and the son of perdition. The committee followed the only proper course to pursue by broadening the statement."

Dr. Minton resented the accusation that the Presbyterian church believed in infant damnation. "The critics and enemies of the Presbyterian church have rolled it under their tongues as a sweet morsel that we believe in infant damnation. We resent the accusation that this chapter contemplates any such interpretation."

Dr. Minton was loudly applauded when he closed.

REPORT ON REVISION

Adopted Without Fuss and Feathers by Presbyterian Assembly.

TWO OPPOSING VOTES RECORDED.

The Question of the Revision of Confession of Faith Will Now Go to Presbyteries For Approval.

New York, May 23.—The general assembly of the Presbyterian church adopted the report of the committee on creed revision, making changes in the confession of faith. This action, which was practically unanimous, was taken with little or no debate. The changes proposed will now go to the various Presbyteries for ratification.

After reviewing briefly the capture of Aguinaldo by General Funston, the methods of whom he sharply criticized, Mr. Hoar expressed the belief that the senate did not know what it was doing when it consented to General Funston's promotion and intimated that the result might have been different if the senate had been fully cognizant of all the facts.

To Lynch a Negro.

Webb City, Mo., May 23.—A mob intent on lynching Will Jones, a Joplin negro, who is charged with assaulting the wife of Section Foreman McKee, near Longview, has been captured by a mob and will be burned.

Death of an Actress.

Chicago, May 23.—Miss Annie Clark of the Julia Marlowe company, and formerly a well-known member of the Boston Museum stock company, died here of pneumonia at the home of Mrs. Stewart.

Death of C. W. Goodlander.

Fort Scott, Kan., May 23.—C. W. Goodlander, known as "the father of Fort Scott," died here at his home of congestion of the brain, resulting from a stroke of apoplexy.

Dr. Minton was loudly applauded when he closed.

To Lynch a Negro.

Webb City, Mo., May 23.—A mob intent on lynching Will Jones, a Joplin negro, who is charged with assaulting Mrs. John Parmeter, 50, a white woman of this city, surrounded the jail here. The mob awaits the arrival of Mrs. Parmeter. If she identifies Jones as her assailant, a lynching seems certain. Jones was run down and caught by bloodhounds.

RIPLEY people want a better arrangement made about sprinkling the streets. They desire that each house be assessed, so sprinkling will be uniform and of more benefit. This is a subject that ought to be taken up in Maysville. The present system of dampening the dust in spots is anything but satisfactory.

A FALSE idea that prevails among Northern people is that of lawlessness in Kentucky. Natives of that part of the country imagine Kentuckians go around with six-shooters in their hip pockets, and filled with whisky, are ready for fight. It is safe to assert that more intoxicated persons can be seen on the streets of some Northern towns in one week or a Saturday night than will be found in Kentucky cities of similar size in three weeks. The cases of violence read of are simply the extremes,—nothing worse than what may occur at any time anywhere else.

THOMAS A. DAVIS, editor of the Maysville Public Ledger, is being urged by Republicans from Boyd and Lewis counties to accept the nomination for Congress against J. N. Kehoe. Mr. Davis would give him a hot chase.—Ripley Bee.

We doubt very much whether Mr. Davis would accept the nomination if tendered him. The Republicans of this district realize that they are "up against it" when it comes to putting a candidate against "Jim" Kehoe, whose renomination by the Democrats of the Ninth seems assured. No, there's not likely to be any great scramble among Republican leaders over the nomination.

EDITOR AILEN, of the Cynthiana Democrat, makes the following humorous references to the late lamented "Black Diamond" bubble:

According to the Dover Messenger, the merger of the Louisville and Nashville and the Southern railway, with the purchase of connecting links from Henderson, Ky., to Chicago, was just what Col. Albert Boone was after when he went into the Black Diamond railroad business, namely, a great line from Chicago to the seashore, by way of Springfield, Ill., Indianapolis, Ind., and Columbus, O. The three branches were to merge six feet west of Jim Logan's smokehouse, near Leeslick, and the depot sites had been selected at Connorsville and Kelat, when the Colonel's pipe went out.

STIFF PENALTY PROVIDED.

Persons Taking Other People's Mail From the Postoffice Should Promptly Return It.

Owing to the fact that postmasters, in handling so much mail matter are liable to make mistakes and get mail into the wrong boxes, the postal authorities have fixed a penalty of \$200 on persons taking other people's mail out of the postoffice and not returning it. The law is to have people look at the mail before they leave the office, and then if they should have mail which does not belong to them they should return it at once. This applies to newspapers as well as any other mail matter. The offense cannot be excused by saying that it is the postmaster's fault, as that makes no difference. Persons who get mail other than their own should return it at once or they may find to their sorrow that the law applies to them.

Another Enoch Arden.

MURRAY, Ky., May 21.—Thirty-two years ago, Joe Robertson, of this county, left his wife and family to go to mill. A few days ago he returned. His wife, not hearing from him, after a number of years married a good citizen of the neighborhood, and they have reared a family and are now old people, and presumably somewhat disturbed over the appearance of one whom they thought dead years ago. Robertson is old and feeble and is stopping with relatives.

BELTS and BUCKLES

Next to an up-to-date stock is the necessity for comprehensiveness. Madam Stout and Madam Slender will choose very different belts. Therefore it is useless to say one belt is the favorite—we sell equally the leather, satin, elastic and silk.

A charming belt is made of black velvet with band of white satin finished with oxidized or black buckles of various designs, 50c.

Another attractive number is in three shades of suede leather—gray, brown or tan. They have a stylish design embroidered in steel across the back and are made in special shape to conform to the waist, 50c.

A novel leather belt in grey and tan suede with snaffle-bit buckle, is much in evidence, 50c.

A belt that sells well is a black patent leather with shaped back and harness buckle, 25c.

An artistic narrow belt comes in grey suede with center band trimming of delicate green and silver, 50c.

An admired belt is of black satin with pinch tucks, girdle back and buckle of oxidized or gilt—of special shape to give droop effect in front, 25c.

A few plain leather belts reduced from 25c. to 5c.

BUCKLES

Dainty buckles are shown in oxidized and black metal for 25c.

Handsome cut steel buckles in filigree effects, 25c., 50c.

A line of artistic belt pins 25c., 35c., 50c.

Blouse Violet Sets, of four pins, very new, 75c.

D. HUNT & SON

JUDGE HANSON KENNEDY.

A New Consumption Cure Being Tested on
Former Well Known Carlisle
Lawyer.

The Cincinnati Enquirer Thursday printed a special from Phoenix, Ariz., saying many successful experiments are being made on the consumptives there.

The Enquirer says an experiment was begun at the Sisters' Hospital in Phoenix, where Dr. Wilfred G. Fralick, of New York, introduced into the blood of Judge Hanson Kennedy, of Carlisle, Ky., thirteen ounces of a new, mysterious liquid germicide whose composition he refuses to divulge. It is supposed, however, to include formaldehyde, much after the same manner of Robbins' preparation. Treatments were also given S. J. Painter, of Phoenix, and Justus Goebel, of Cincinnati.

Fralick's fluid is almost clear, save for slight bluish tinge. It was introduced into a ligated vein in the wrist at a temperature of 115 degrees. Little care was taken to keep air out of the wound, as the Doctor averred that there was not the slightest danger from that source. The patients complain of no pain as the fluid was pumped into the heart and thence to the extremities of the body.

Much to Answer For.

"If it were not for the newspapers," says Congressman Littlefield, "the jobs which would go through Congress are terrible to contemplate. If there were no newspapers at all, I don't believe I would be willing to trust myself alone in the House of Representatives for fifteen minutes."

Brother Littlefield might pursue that "if" considerably farther. Indeed, "if it were not for the newspapers," very few men now in Congress would ever have got out of their "native parts."

The newspapers have much to answer for, as well as much to be thanked for.

Prosperous Farmers

Save money on wagons and farm implements by painting them with Plantation Implement and Wagon Paint. Do it before the old coat has worn off or if the wood is already exposed, do it at once. Few things yield as much profit for the small cost as paint on your farm equipment—few things are so generally neglected.

Plantation Paints for this purpose come in blue, vermillion, green and black. Being ground in varnish, it dries with a hard, durable gloss, that is a perfect protection to the wagon or implement. We are sole agents.

THE BEE HIVE

In They Come! Out They Go!

The wheel of evolution is here; perpetual motion at last accomplished! In they come—hundreds of cases of goods from all over the country. Out they go—thousands of packages to the many homes in and around Maysville. Goods here to-day are not here to-morrow. New goods arriving daily.

SUMMER GOODS HOLD THE FORT!

Lawns, Ditties and Swiss, 7½, 10, 15 and 25c. the most popular, but on up to 75c. if you wish them. A fair representative in the center window.

WALKING SKIRTS at last are here. New styles and new colorings—light grey the favorite. All prices, but the two favorites are \$5.95 and \$7.95.

The whole store is full of good news. Come and let us talk to you about it, and at the same time we will show you what we are doing. Remember a day too soon is not a day too late.

GRAND PATRIARCH RUSSELL.

Maysville Man Honored With the Highest Office in the Gift of Grand Encampment of Kentucky I. O. O. F.

The Grand Encampment I. O. O. F. of Kentucky at Wednesday's session at Carrollton elected the following officers:

G. C. P.—J. B. Russell, Maysville.
G. H. P.—Wm. Todd, Middlesboro.
G. S. W.—C. P. Scott, Ghent.
G. J. W.—Enos Bayce, Louisville.
G. S.—R. G. Elliott, Lexington.
G. T.—George W. Morris, Louisville.
G. R.—John S. Gaunt, Carrollton.
G. M.—J. P. Wheeler, Prestonsville.
G. I. S.—W. J. Conover, Henderson.
G. O. S.—C. S. Graves, Lexington.

Paducah was selected as the next place of holding the Grand Encampment meeting. The encampment gained in membership 135 during the past year.

The election of Mr. Russell as Grand Chief Patriarch gives Maysville the two highest offices in the gift of Kentucky Oddfellows, Mr. Allan D. Cole being the present Grand Master of the Grand Lodge. The honor could not have been more worthily bestowed in either instance.

Grand Patriarch Russell, Grand Representative Wm. H. Cox and Messrs. J. B. Orr, Harry C. Curran, Jacob Miller, W. R. Smith, J. L. Daulton and Thomas P. Boyce, of Pisgah Encampment, returned Thursday from Carrollton. They speak in the highest praise of the royal treatment accorded them by the Carrollton Patriarchs.

A Peculiar Accident.

Mrs. Pierce, daughter of Mrs. M. E. Stallcup, of Ripley, met with a peculiar and painful accident at her home in Xenia about a week ago. She was tacking up a splash back of her washstand, and the long drop cord to the electric light in her room had fallen back of the splasher without her noticing it. As she was driving one of the tacks, it happened to hit the cord in such a way as to connect the two insulated wires and form a "short circuit." There was a sudden flash which burned Mrs. Pierce's hand so badly that she is still obliged to keep it bandaged.

Wilbur Woolsey and Miss Pearl Beatrice Jones, of Cincinnati, secured a marriage license at Danville and were married at midnight Wednesday by Rev. J. O. A. Vaught at the Methodist parsonage. The minister was indisposed and asked the couple to secure another man to tie the knot, but they made it comfortable for Mr. Vaught by permitting him to perform the ceremony without arising from the bed.

A great deal has been written and said about the ravages of the cut-worms this spring, and some of the tales told of the destructiveness of this little pest are truly wonderful. Here's one that sounds a little "fishy," but since it comes from a farmer whose veracity is usually unquestioned on such matters we give it for what it is worth. The gentleman said that one of his neighbors came over where he was plowing and sat down on the ground while they were talking. When he got up the cut-worms had eaten the seat out of his pants. He failed to say whether or not the nails in his shoes suffered a like fate.

We have completed preparations whereby our patrons will be afforded an opportunity to join in our experiments of estimating this store's ever-increasing popularity and encouraging cash transactions, we have arranged a novel contest, which not only appeals to your patriotism but affords guessers a chance to win nice cash prizes in addition to other substantial rewards. We display in our show window a large American Flag, composed of stars of various colors and sizes. No one knows how many stars there are, no account having been kept while the Flag was being constructed. You may guess once for each 50¢ CASH purchase made at BARKLEY'S SHOT STORE up to the closing hour July 1st, 1902. After that date a disinterested committee will take charge and make a careful count. At 10 a. m., on the FOURTH OF JULY, announcement will be made at our store of those who guessed closest, to whom will be awarded the prizes printed on the right. In case of tie, the prize will be equally divided. Record your guess, name and address in the blank space under the flag, and tie it with INK, tear off the stub and deposit it in the sealed box provided for the purpose at our store. Remember IT COSTS YOU NOTHING to try for ONE OR MORE of these prizes, and you may guess at your own convenience, and as often as you please. For the benefit of those who wish to figure in making an estimate, these dimensions are given: Size of Flag, 4 feet 11 inches by 7 feet 5 inches; Stars range from ½ up to 4½ inches.

State Auditor's Agent F. Stanley Watson filed suit in the County Court this morning against Jesse H. Calvert and wife to recover back taxes on various amounts of personality, which, it is alleged, defendants omitted to list for assessment during years 1880 to 1902, inclusive, amounting to a total of \$305,000. He asks judgment for \$1,449 taxes and \$289 80 penalty.

THE COUNTY ASSESSMENT.

Committee Secures a Reduction in the Proposed Increase by the State Board Equalization.

The committee composed of Judge Newell, Mayor Stallcup, Deputy County Clerk Wood and Mr. W. H. Robb who went to Frankfort Thursday to protest against the proposed increase in the county assessment returned last evening well pleased with the result of their work.

The State Board proposed to add 10 per cent. to the assessment of land and personality and 7 per cent. to that of town lots. After listening to the arguments of the committee, the Board fixed the increase at only 5 per cent. on land and personality and 3 per cent. on town lots.

This means a net saving to the county of taxes on \$400,000, and leaving the assessment of land in this county lower than by any former State Board.

The Court of Appeals has overruled the petition for rehearing in the suit of McCabe's administratrix versus Maysville and Big Sandy Railroad Company, taken up from this county.

The downpour of Tuesday proved fortunate for a number of the people of Cleves, near Cincinnati. As a result of the storm and the heavy rainfall innumerable fish were washed ashore and remained there after the water receded rapidly. It's said the streets of the village were actually covered with fishes of all sizes and weights. One fellow bagged a fish weighing forty pounds, while another secured one which tipped the scale at twenty-five pounds.

Election of officers.

Take care of the stomach and the health will take care of itself. If people only realized the soundness of that statement the majority might live to a good old age like Moses, "the eye undimmed, the natural force unabated." It is in the stomach that the blood is made. It is from the stomach that nourishment is dispensed to nerve and muscle. If the stomach is "weak" it can't do its whole work for each part of the body. It was the realization of the importance of the stomach as the very center of health and the common source of disease, which led Dr. Pierce to prepare his "Golden Medical Discovery." "Diseases which originate in the stomach must be cured through the stomach." The soundness of this theory is proved every day by cures of diseased organs, heart, liver, lungs, blood,—by the use of "Discovery" which is solely and singly a medicine for the blood and organs of digestion and nutrition. It is a temperance medicine containing no alcohol, whisky or other intoxicant.
